GROWN IN
CALIFORNIA

Figs' full flavor and chewy texture make them a tasty, nutritious addition to your healthful diet. Figs are rich in complex carbohydrates, a good source of dietary fiber and a wealth of essential minerals such as potassium, iron and calcium.

WAYS TO EAT

The best way to enjoy these gems is by removing the stem and taking a bite right out of the raw fig. You can eat them raw, with the skin and seeds intact or cook the figs by baking, broiling or grilling them.
